Art Unit: 2823

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-5, 7, 9-12, 15, 18, 19, and 26-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Kishii et al.

The rejection is maintained as stated in the Office Action mailed 6-20-01, and as stated below.

Applicant argues that the step of Kishii et al disclosed in Column 14, lines 53-59 is not encompassed by the recitation of rinsing. However, applicant has not established that the term “rinse”, as understood by one of ordinary skill in the art to be limited to the definition provided on page 5 of this amendment filed 9-24-01. Note that applicant’s disclosed hydrogen peroxide can be a part of a rinsing solution and as such a process is outside of the scope of the definition provided. The term is understood to include “to remove (dirt or impurities) by washing lightly or in water only”, as disclosed in Merriam-Webster’s On-Line Collegiate Dictionary (<http://m-w.com/>).

Claims 6, 8, 13, 14, 16, 17, and 20-22, are rejected under 35 U.S.C. 103(a) as being unpatentable over Kishii et al as applied to claims 1-5, 7, 9-12, 15, 18, and 19 above, and further in view of the following comment.

The rejection is maintained as stated in the Office Action mailed 6-20-01.

Art Unit: 2823

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23-26 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no description in the specification as originally filed of the used of hydrogen peroxide only. There is only seen support for hydrogen peroxide and nitric acid (Page 8, lines 1-2), and hydrogen peroxide and deionized water (Page 8, lines 15-19).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
